The documentation associated to this process certification is:

Qualification Reference: AM-SUB-013-24
Revision: 0
Issue Date: 20/12/2023

CERTIFICATION SPECIFICATION	CASA-1400	Rev. 3
	CASA-1085	Rev. 8
	IQTP- ADSM-SP-1000292646	Rev. 1
PROCESS SPECIFICATION	I+D-E-137	Rev. 4
	AITM6-1001	Rev. 13
INDUSTRIAL QUALIFICATION TECHNICAL REPORT (IQTR)	IQTR: IQTR_PTP 752_20 Rev.1 (24/02/2023)	
LIMITATIONS	<ul style="list-style-type: none"> Limited to Programs of Airbus DS Space (no Pri-Nadcap certification required). Limited to penetrant inspection Type I and Method A in parts that have not been in service and required inspection according to I+D-E-137. 	
DEVIATIONS	N/A	
REMARKS	N/A	
PRELIMINARY APPROVAL	N/A	

REMARKS: CERTIFICATION AUDIT 2022-MAPAT-201

- (1) The information in this certification sheet contains the documentation associated to the process certification at the status of the specific moment of the certification. The process certification shall be maintained by the supplier according to the last issue of applicable documentation, unless otherwise indicated.
- (2) After the final Approval, this process will be registered in ADS CSPL and will pass to be under Airbus DS Special Processes sustainability System. The Nadcap Accreditation is required by Airbus as sustainability system for assuring the Qualified Processes for those Processes Commodities as stated in the Airbus Group Policy PP1800444. Note that the supplier, as owner of the qualified plant/process, shall assure the compliance with this Airbus Policy.
- (3) The Industrial Qualification Technical Report (IQTR) has to be maintained by supplier as process owner.
- (4) AIRBUS DS does not consider as valid any deviation not expressly stated in this document.

The validity of this certification cover sheet and its certification has to be contrasted with the Certified Special Processes List (CSPL) published in its latest review. The latter information will prevail over the cover sheet, meaning that if the certification is not included in CSPL, the certification is not active or cancelled and, therefore, the supplier is not certified for this process.
